

The Italian Multiple Sclerosis And Related Disorders Register

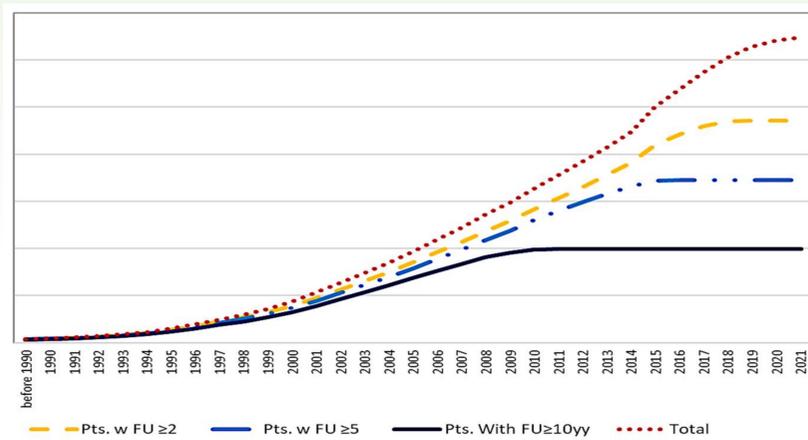

MS Clinical Centers and MS cases collected in by Italian regions

SAMPLE

The database included the clinical history of approximately **77,600** patients and sub-cohorts with different follow-up duration (≥ 2.0 , 5.0 , and 10 years). These cohorts may provide extremely useful information for long-term evaluation of treatment efficacy and safety and natural history.

Cohorts of patients with follow-up $\geq 2-5-10$ years

Total sample/ 77,628 pt

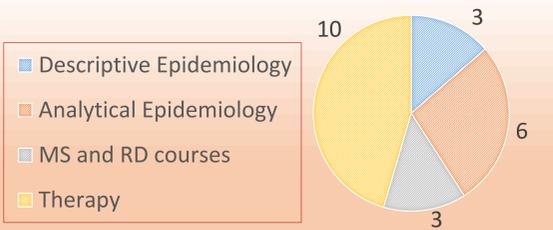

Fu $\geq 2y$ / 48,000 pt

Fu $\geq 5y$ / 35,000 pt

Fu $\geq 10y$ / 20,000 pt

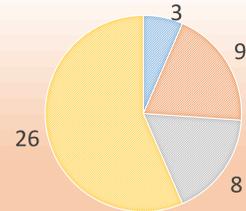

RESEARCH PROJECTS BASED ON THE RISM DATA

ONGOING PROJECTS DIVIDED BY PRIORITY AREAS OF RESEARCH

22 ongoing projects

OVERALL PROJECTS DIVIDED BY PRIORITY AREAS OF RESEARCH

46 completed and ongoing projects

77,628 MS cases

168 MS Centers have joined the RISM (126 active Centes)

NETWORK OF RESEARCH ASSISTANTS

A network of **18** young research assistants (RA) are working in **14** Regions and supporting approximately **100** MS Clinical Centers.
